LOYOLA QUINTET WINS FAST GAME

From West Virginia Wesleyan College Basketball Five by Score of 39 to 13.

BALTIMORE, Feb. 11.—West Virginia Wesleyan lost another game here Thursday night to the strong Loyola College five, by the score of 39 to 13. Although the score was one sided the game was decidedly of that character. Except for the last few minutes the crowd of spectators was in an uproar and it was hard to believe that the Loyola team had trebled the score on the team from the West Virginia mountains.

At the end of the first half the score stood 22-12 in favor of Loyola but Wesleyan duplicated its performance of Wednesday night at the Navy game by not registering a single goal from field during the second period.

Tonight Wesleyan will play one of the best teams in the East, Catholic University at Washington D. C. The lineup and summary:

Wesleyan—13.	Loyola—39.

The visitors were the fastest team seen on the local floor this season and displayed good team work. Wonderful shooting and playing of D. Whiting for the locals was responsible for the victory. FEW DOLLARS LEFT.

(By Associated Press.)

VIENNA, Feb. 11.—So few doctors are left in Vienna that professional consultations over the telephone have become very numerous. Instead of calling the doctor to the house many people now seek his advice over the telephone, especially in cases where the patient has already been examined. The Vienna Medical Association reminds the public of a legal decision, rendered some years ago, that such consultations are to be regarded as medical consultations, and paid for accordingly.

GARTER

Factories All Close Down on Account of the Scarcity of Rubber.

VIENNA, Feb. 11.—The scarcity of rubber elastic has caused all the garter factories in Austria-Hungary to close down, as well as most of those in Germany. Elastic garters and suspenders are no longer to be had, except where, here and there, a dealer has some stock left on his shelves. Elastic strings which could be bought before the war at the rate of three dollars for 200 pounds, now cost from eighteen to twenty-four dollars for the same quantity and are hard to get even at those prices. Thread has gone up from seventy cents to two dollars, and dyestuffs have also doubled in price.

Largely because of the great drought in Africa, the supply of ostrich feathers is smaller in quantity and inferior in grade.

MORGANTOWN, Feb. 11.—State Road Engineer A. D. Williams will arrive home Saturday from a week's speaking tour, during which time he delivered four addresses. His most important address was delivered on Wednesday evening at the University of North Carolina at Chapel Hill, N. C., at the annual good road school of the state highway commission of North Carolina. On Friday evening he will speak at a big mass meeting of good road enthusiasts at Romney. He has received a number of other invitations to speak at various places in Kentucky, Tennessee and other southern states, but was forced to decline, owing to several pressing matters in his offices here.

NUSBAUM CASE

Will Be Taken to the Supreme Court on Appeal from the Court at Morgantown.

Following arguments of some length, Judge George C. Sturgis, of Monongalia county has overruled the motion to set aside the verdict returned by the jury in the case of the state against William Nusbaum, a wealthy Clarksburg merchant, and fined him \$500 and imposed a jail sentence of four months. Judgment was suspended for sixty days upon the filing of \$2,000 by the defense. At the close of arguments, Judge Sturgis gave a review of the enactment of the prohibitionary legislation of this state.

REVIVAL

Meetings at Adamston Are Very Successful in Their Very Inception.

Splendid success marks the revival meetings in the Adamston United Brethren church, though the same have been in progress only five nights. There have been thirteen conversions and renewals and several are at the altar. The church is greatly revived and large crowds are attending the services. The Rev. D. W. Cunningham, pastor of the church, is doing the preaching and there is good singing.

GOOD ROADS COMMITTEE OF TEN IS NAMED

In Simpson District to Report Where Permanent Roads Should Be Made.

A committee of ten citizens consisting of Dr. John R. Folk, Jr., R. Jones and Cletus Stout. S. S. Faris whose homes are in the upper end of the district; J. B. Supler, of the Grasselli end of the job; Walter E. Frum, of the lower end of the district; J. E. Bartlett, Delbert Lang, W. S. McDonald and P. C. Sturm, is to survey Simpson district in efforts to conclude where twenty miles of permanent road should be constructed and report its findings at a mass meeting to be held at Bridgeport within the next ten days, as a result of a mass meeting at Bridgeport Thursday. In the event the committee's report is accepted, the county court will be asked to authorize an election in the district on a bond issue of \$200,000 for permanent roads.

A. D. Williams, state road engineer, or a representative of his office, and Guy M. Harbert, Harrison county's road engineer, were named as an advisory committee to advise with the ten committeemen in Simpson district. They will go over the whole district, map it out, study the problems, and help make out the report that will be submitted at the next called mass meeting.

Here is the proposition, as brought out at Thursday's meeting. The law only allows five per cent on the taxable valuation of the property in the district to be bonded. Simpson district's taxable valuation is \$4,750,000. Of this the municipality of Bridgeport has a taxable valuation of \$1,000,000, the other \$3,750,000 is in the country districts. Bridgeport already has a bonded indebtedness of \$34,500 in water works and school bonds, and as independent corporations cannot be bonded for but something like \$25,000 and keep within the five per cent limit, on its taxable valuation for bond issues. The town is ready to spend more money for roads, representative citizens say, but they can only do so by having the bond submitted as a unit in the whole district, and approved or disapproved by the voters.

One who figured it closely at the meeting stated that it would not only be possible to bond the district for \$202,000—"that is the limit set now," he said. "We are asking for a \$200,000 bond issue."

Counting the votes in the district, at the last election in the municipality of Bridgeport, just 188 votes were cast and the year before that 212. Something like 250 voters live in the town. In the country districts the votes cast at previous elections run between 450 and 550, or something

Although many productions offered by Thomas H.
